

Kingdom Bank - Interac - Client Side - Guide

Overview

The Kingdom Bank - is a global offshore crypto-friendly fintech bank based in the Commonwealth of Dominica. This bank provides tailor-made secure, next-generation digital banking services to international customers. The Kingdom Bank provides corporate and correspondence banking services, competitive FX rates, and local and global payments in over 50 currencies.

How to use Interac with Kingdom Bank

Step 1 - Checkout

First of all, the client must complete all 4 steps required at checkout, namely:

1. Select the cryptocurrency to buy.
2. Specify the amount in fiat.
3. Enter an external crypto-wallet address.
4. Agree with our Terms & Conditions.

After it is done, click on "*Submit*" button.

Terms and Conditions:

☒ I understand, accept, and agree to all of the following:

- ☒ I am aware of the risk in holding cryptocurrencies (Bitcoins, Ether etc.).
- ☒ I am aware of the fact that due to extraordinary demand of Bitcoin; Completing an order might take a long time and my order might be cancelled and refunded by Divicoins.
- ☒ I agree that Divicoins is not committed to buying the Bitcoins I purchased, back from me.
- ☒ I know that the Bitcoin value is unstable and therefore from the moment of paying until Divicoins completes the order, the value of Bitcoin might increase or decrease and result in me losing money.
- ☒ I am not a "politically exposed person" (PEP)
- ☒ I agree to the [terms and conditions](#)
- ☒ I agree to the [privacy policy](#)

Then the client must double-check their order details and choose "*Kingdom Bank*" payment method.

Your Order

Here's the summary of your order
